

4A – Watermelon

Deon Marshal

14 April 2024

1 Problem

Problem Description : {<https://codeforces.com/contest/4/problem/A>}

2 Objective

The objective of this problem is literally simple, determine yes or no to the mass of the watermelon which can be divided into two parts with an even mass.

3 Solution

Using the usual implementation of if else where the mass that satisfies must be a mass with an even number greater than 2.

4 Code

```
#include <bits/stdc++.h>
#include <iostream>
#include <vector>
#include <algorithm>
using namespace std;

int main(){
    int w;
    cin>>w;
    if (w>2 && w%2==0){
        cout << "YES";
    }else
        cout << "NO";
    return 0;
}
```
